

CHARAN KUMAR

Software Engineer | Java | React.js | SQL | Frontend Development

Phone: +91 XXXXX XXXXX | Email: charankumar@example.com | GitHub: github.com/charankumar | LinkedIn: linkedin.com/in/charankumar | Location: India

PROFESSIONAL SUMMARY

Motivated Software Engineer with strong foundational skills in Java, HTML, CSS, JavaScript, React.js, SQL, Git, and GitHub. Skilled in building responsive web interfaces, writing clean code, managing version control, and developing database-driven applications. Passionate about problem-solving, software development, and contributing to real-world projects in collaborative teams.

TECHNICAL SKILLS

Programming: Java, JavaScript

Frontend: HTML5, CSS3, React.js, Responsive Design

Database: SQL, DBMS basics, CRUD operations

Tools: Git, GitHub, VS Code

Core Concepts: OOPs, Problem Solving, Debugging

Soft Skills: Teamwork, Communication, Quick Learning

PROJECTS

Software Engineering Portfolio Website

- Built a responsive personal portfolio using HTML, CSS, JavaScript, and React.js to showcase skills, projects, and contact details.
- Implemented clean UI sections, reusable React components, smooth navigation, and mobile-friendly layout.
- Used Git and GitHub for source-code management and version tracking.

Student / Employee Management System

- Developed a basic management application using Java and SQL to store, update, search, and manage records.
- Applied OOP principles such as classes, objects, encapsulation, and modular code organization.
- Designed SQL queries for inserting, updating, deleting, and retrieving data efficiently.

React Dashboard UI

- Created a frontend dashboard using React.js with cards, tables, forms, and reusable components.
- Focused on clean layout, user-friendly interface, responsive behavior, and proper component structure.

EDUCATION

Bachelor of Technology in Computer Science and Engineering

University / College Name - India | Year of Passing: 2026

Relevant Coursework: Java Programming, Web Development, DBMS, Software Engineering, Data Structures, Computer Networks.

INTERNSHIP / TRAINING

Software Development Trainee / Intern

- Practiced frontend development using HTML, CSS, JavaScript, and React.js.
- Worked with Java programming concepts, SQL queries, Git commands, and GitHub repository management.
- Improved debugging, logical thinking, and project documentation skills.

CERTIFICATIONS

- Java Programming - Basic to Intermediate
- Web Development using HTML, CSS, JavaScript, and React.js
- SQL and Database Management Fundamentals

STRENGTHS

- Strong interest in software development and frontend technologies.
- Ability to learn new tools quickly and solve technical problems.
- Good understanding of version control using Git and GitHub.

DECLARATION

I hereby declare that the information provided above is true to the best of my knowledge and belief.
