

SUMMARY

Python Full Stack Developer with experience in MERN and Python stacks, specializing in scalable web architectures. Developed an automated resume evaluation system using MongoDB, Express.js, React.js, and Node.js, and an AI resume detection tool with Flask and Ollama 3.0 for intelligent content parsing. Skilled in optimizing database queries and implementing secure authentication protocols for real-time applications.

SKILLS

Programming Languages: Python, C, JavaScript

Frontend Development: HTML5, CSS3, React.js

Backend Development: python

Databases: SQL

AI & Machine Learning: AI Content Tools

Tools & Methodologies: Figma, Excel Basics, OOP

WORK EXPERIENCE

QSpiders	Basavangudi
Python Full Stack Developer Intern	Dec 2025 - Present
SkillDzire	kuppam
Full Stack Java Development Internship	Sep 2025 - Oct 2025
• Gained hands-on experience in Java-based full-stack development, contributing to modular project components and unit testing.	
APSSDC	kuppam
Python Intern	Mar 2024 - Apr 2024
• Applied core Python concepts to automate data processing tasks and basic application logic.	

PROJECTS

Automated Resume Evaluation System	Jan 2025
• Built a full-stack web application (MongoDB, Express.js, React.js, Node.js) to automate resume ranking and evaluation against job descriptions.	
• Implemented intelligent scoring algorithms to parse candidate profiles, extract key skills, and generate match-percentage evaluation reports.	
AI Resume Detection Tool	Jan 2025
• Developed an AI-powered resume analysis tool using Flask and Ollama 3.0 LLM for intelligent content parsing and contextual evaluation.	
• Integrated local LLM inference via Ollama to deliver context-aware feedback and scoring without relying on external cloud APIs.	
Small Shops & Sandal Project - Freelance Web Developer	
• Designed and deployed custom e-commerce and showcase websites for local businesses; managed full lifecycle from Figma UI/UX design to cloud hosting.	
Quiz Game Using Java	
• Console-based OOP application using inheritance and encapsulation with dynamic scoring system and engaging user interaction logic.	
Dice Game Using Python	
• Logic-driven simulation game using control structures, random module integration, and robust input validation.	

EDUCATION

Kuppam Engineering College	Kuppam
B.Tech in Computer Science & Engineering	Sep 2022 - Present
• Maintaining 67% aggregate through rigorous coursework	
Vikas Junior College	
Intermediate (MPC)	Jun 2020 - May 2022
• Graduated with 65% aggregate, building a strong mathematical and analytical foundation	
Vikas Public School	
SSC	Jun 2018 - May 2020
• Achieved 98% score demonstrating consistent academic excellence in foundational studies	

CERTIFICATIONS

- Java Programming: 6-month intensive certificate — Kuppam Infotech
- Python Programming: 4-month professional certificate — Kuppam Infotech
- C Programming: 1-month fundamental certificate — Kuppam Infotech
