OBJECTIVE

Highly motivated Python Full Stack Developer with strong proficiency in front-end and back-end development, specializing in scalable web architectures and database management. Dedicated to delivering high-quality code under tight deadlines, leveraging expertise in MERN and Python stacks to drive innovation and contribute to impactful software solutions.

EDUCATION

- B.Tech in Computer Science & Engineering — Kuppam Engineering College** 2022 – 2026
- Focusing on software engineering and data structures; maintaining 67% aggregate through rigorous coursework.
- Intermediate (MPC) — Vikas Junior College** 2020 – 2022
- Graduated with 65% aggregate, building a strong mathematical and analytical foundation.
- SSC — Vikas Public School** 2018 – 2020
- Achieved 98% score demonstrating consistent academic excellence in foundational studies.

SKILLS

Technical: Python, Java, C, HTML5, CSS3, JavaScript, React.js, Flask, Node.js, Express.js

Databases: SQL, MongoDB

Tools & Design: Figma, Git, Ollama 3.0, AI Content Tools, Excel Basics

Professional: Leadership, Team Management, Adaptability, Time Management, Target-Oriented

INTERNSHIPS

- Python Full Stack Developer Intern | QSpiders, Basavangudi** Dec 2025 – Apr 2026
- Engaged in end-to-end development of web applications, integrating Python-based backends with responsive user interfaces.
 - Collaborated with senior developers to optimize database queries and implement secure authentication protocols for real-time applications.
- Full Stack Java Development Internship | SkillDzire** 1 Month
- Gained hands-on experience in Java-based full-stack development, contributing to modular project components and unit testing.
- Python Internship | APSSDC** 2 Weeks
- Applied core Python concepts to automate data processing tasks and basic application logic.

PROJECTS

- Automated Resume Evaluation System** MERN Stack | 2025
- Built a full-stack web application (MongoDB, Express.js, React.js, Node.js) to automate resume ranking and evaluation against job descriptions.
 - Implemented intelligent scoring algorithms to parse candidate profiles, extract key skills, and generate match-percentage evaluation reports.
- AI Resume Detection Tool** Python, Flask & Ollama 3.0 | 2025
- Developed an AI-powered resume analysis tool using Flask and Ollama 3.0 LLM for intelligent content parsing and contextual evaluation.
 - Integrated local LLM inference via Ollama to deliver context-aware feedback and scoring without relying on external cloud APIs.
- Freelance Web Developer — Small Shops & Sandal Project**
- Designed and deployed custom e-commerce and showcase websites for local businesses; managed full lifecycle from Figma UI/UX design to cloud hosting.
- Quiz Game Using Java**
- Console-based OOP application using inheritance and encapsulation with dynamic scoring system and engaging user interaction logic.
- Dice Game Using Python**
- Logic-driven simulation game using control structures, random module integration, and robust input validation.

CERTIFICATES

Java Programming: 6-month intensive certificate — Kuppam Infotech

Python Programming: 4-month professional certificate — Kuppam Infotech

C Programming: 1-month fundamental certificate — Kuppam Infotech
